Art Unit: 1625

1. Claims 20 through 23 are pending. Claim 20 has been amended. Claims 13 through 19, 24 and 25 have been canceled. Applicants' claim to foreign priority by application GERMANY 102 48 599.2 filed October 17, 2002 is acknowledged.

Applicant's amendments and remarks filed November 17, 2009 have been entered and carefully considered.

***Reasons for Allowance***

2. With regard to the prior rejection of claims 20 through 23 under 35 U.S.C. 103(a), Applicants have amended independent claim 20 to include the limitations of previously cancelled claim 13, and argue that it would not be obvious to one of skill in the art to change the dimensions of the evaporation chambers so that reaction chambers are essentially equal sized to gap-type reaction chambers, to avoid film interruptions, dry running and undesirable hot spots. Applicants further argue that Ishida et al use the grooved tube body to insure sufficient wetting and spreading of the refrigerant and teaches nothing to one skilled in the art that gap-type evaporation chambers of essentially equal-sized rectangular shapes would serve any particular purpose.

Applicants' argument is found persuasive. Therefore, the rejection of claims 20 through 23 as obvious over Blomgren et al. in view of Ishida et al. is hereby withdrawn.

3. With regard to the prior objection to claims 20 through 23 for improper dependency, Applicants have amended claim 20 to read in independent form.

Therefore, the objection to claims 20 through 23 is hereby withdrawn.

4. The claimed invention is neither anticipated by, nor obvious over, the prior art.

Art Unit: 1625

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
